THE IRA CAN MARCH IN SHEFFIELD AND BIRMINGHAM
BLACK MOBS CAN RAMPAGE IN NOTTING HILL
BUT A LAWFUL BRITISH POLITICAL PARTY GETS BANNED FROM THE STREETS OF HEMEL HEMPSTEAD

THE FARCE OF FREE SPEECH

ON SATURDAY 5th September over 150 National Front members and supporters converged on the Hertfordshire town of Hemel Hempstead determined to get our message across to the local people and to provide a boost to our local members.

The Hertfordshire Police had made it clear that as far as their Chief Constable, Mr.T.A.Morris, was concerned the National Front has no right to exist in Hemel Hempstead, let alone hold any activities.

An application to hold a march (which is now required under the new Public Order Act) was received by the Police on Tuesday 19th August; on Wednesday 20th August they claimed that there would be serious public disorder if the march went ahead and so they announced a ban. Now quite how the police could know there would be serious public disorder when hardly anyone in Hemel Hempstead even knew about the proposed march is difficult to work out.

NO TROUBLE

This act becomes even more cynical when it is remembered that the marches held by the NF over the last few years have attracted only limited numbers of opponents and their antics could hardly be described as amounting to 'serious public disorder'.

Although enquiries were made about the possibility of legal action against the police, NF representatives were told that the cost of such a court case could run into thousands of pounds. British justice is only available to those who happen to be very rich.

Determined not to be thwarted, on the day of the march National Front members from nearby areas attempted to go to Hemel Hempstead to carry out quite lawful activities including the distribution of leaflets, a picket of the police station and a series of paper sales.

Some vehicles carrying NF members were intercepted by the police and prevented from reaching the town centre. However a considerable number managed to avoid the police patrols and small groups dispersed across the town to carry on these legitimate activies.

CAT AND MOUSE

The police told NF officials that only one group of four people would be allowed to distribute leaflets, so one group gave out leaflets under the watchful eye of the police while others played cat and mouse with police patrols in other parts of the town and sold papers and leafleted door to door.

★ *Police threaten NF members from Birmingham with arrest unless they board their coach and leave Hemel Hempstead.*

Despite the actions of Chief Constable Morris, Saturday 5th of September was a good day for the National Front. Apart from extensive local newspaper coverage including long interviews with NF Chairman, Martin Wingfield, we also met a number of erstwhile members, some of whom said that they were so disgusted with the actions of the police that they rejoined on the spot and promised to help other local members form a proper National Front branch in Hemel Hempstead. A record number of enquiries were received from the 1000 leaflets handed out which asked why the Notting Hill Nightmare was allowed to go ahead yet a lawful march by one of Britain's political parties was banned.

HEMEL HEMPSTEAD NF FIGHT BACK!

NATIONAL Front members and supporters from Hemel Hempstead, outraged at the totally undemocratic ban of the recent NF march, have launched a propaganda offensive in the town.

More than 1,000 leaflets have been distributed in the town itself whilst on Saturday 19th September a papersale was held in nearby Tring.

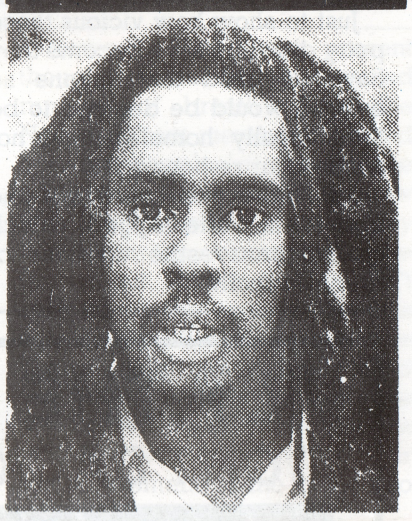
SEND BALOGUN BACK HOME



★ *Kuomba Balogun.*

In July 1981, Kuomba Balogun fire-bombed a police station in Nottingham. He was sentenced to five years imprisonment.

In September 1986 Balogun received a two month suspended sentence after assaulting a police officer during a drugs raid in the St Pauls area of Bristol.

In September 1986 Balogun gained further notoriety for saying of a police chief who led that drugs raid and suffered a heart attack after the operation, ***"I hope the bastard dies".***

In August 1987 Balogun was appointed to run the local council and government funded Local Development Agency. His new £10,000 a year job made him co-ordinator responsible for administering grants to community groups.

TORY SUPPORT

★ *Balogun and friend with Sinn Fein*

In September 1987 Balogun was invited by Sinn Fein to meet IRA members and supporters in Belfast.

William Waldergrave, the Tory Housing Minister has defended the appointment of Balogun. ***His constituency happens to include St. Pauls,*** and he has warned critics of the former fire-bomber to 'leave him alone and let him get on with the job'.

The FLAG **says 'SEND THE BASTARD BACK HOME!'.**

Asians warn Council over St. George

ASIAN leaders in Luton are trying to stop the flag of St George from being flown on April 23rd, St George's Day.

Labour councillor, Mohammed Ashraf warned the council that the local Asian Community would not tolerate the flying of the St George's flag from the town hall. He said leaders of Luton's very large Asian Community would be organising a petition calling on the council to ban the flag.

You Must be Joking

BRENT Council must go top of the league of loony Labour councils with their latest decision to threaten people with eviction from council housing if they tell jokes which are 'racist, sexist, anti-gay or -lesbian'.

Just to show how vicious these petty dictators have become they have declared that anyone so evicted would be deemed to be 'intentionally homeless and not eligible for re-housing'.

P.S. Have you heard the one about the one-legged, black queer, transvestite member of Brent Council?

BRITISH MONEY SUPPORTS AMERICAN WORKERS!

AMERICAN companies are being bought up by non-Americans at a record - who are the buyers? The Japanese, the Germans? No British money is being invested in America at a rate of knots.

Last year 89 major U.S. companies were taken over by British firms - the Germans took over 19 and the Japanese just 16, France took over 6 firms. At first sight some people may be pleased to see Britain at the top of such a league table until it is realised that every pound that is invested in America is one pound less that could be invested in new British companies, in modernising our factories or in the new electronics industries.

'Maggie' says that British workers do not produce as much as their foreign counterparts - could this be because other countries invest their money in equipping their own industries while British banks and finance houses invest British money in equipping foreign firms.

Not surprisingly some Americans are not at all happy about seeing their industries being bought up by Europeans and the Japanese.

John Bryant, a Texas congressman recently said:

"America has been selling off its family jewels to pay for a night on the town - and we don't know enough about the new owners".

The scale of British investment in America is truly staggering, already this year over £15,000 million has been spent on buying 178 companies, compared with £9,000 million in the whole of 1986 - yet all this money should be invested in this country to make sure that there are more British jobs for British workers.

• *British Workers: Only the NF can restore their dignity.*

NO-STRIKE AGREEMENT SIGNALS END OF UNION POWER

THE imminent collapse of organised trade unionism in Great Britain continued during September with the signing of a single-union agreement by the Transport and General Workers Union.

The deal signed between the TGWU and Norsk Hydro, a UK subsidiary of a Norwegian company, stipulates that there should be no industrial action while procedures for resolving disputes are in force. This could very well lead to a situation in which the company continues to make offers to the workforce which it knows will be unacceptable to most members, with the union officials unable to recommend a course of action to force a better offer. Effectively it is a no strike agreement, although both the TGWU and Norsk Hydro claim that it is not.

There are other aspects involved which would have been unthinkable to a British Trade Union only a few years ago. These include the recognition of only one union, the TGWU, in place of the previous four; a Japanese-style 'advisory council' and full workforce-flexibility - in other words the shifting of workers from one job to another at little or no notice.

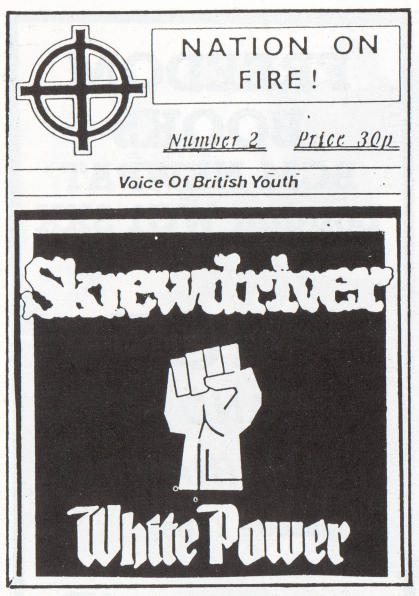
John Miller, TGWU notional chemicals officer, said "I have acted pragmatically" - another way of saying that there was nothing else he could do.

Such pragmatism is a clear recognition by the unions that British Trade Unions are on the way out. Even the EETPU electricians union are critical of the TGWU deal, despite being generally in favour of single-union agreements.

It could be argued that the continuing collapse of the unions is a result of the 'Thatcherite Hard Line', and that is undoubtedly true. but it is more than that.

It is the result of decades of cynical manipulation of the Unions by the Left, and the consequent loss of morale among Union members. Even the most complacent and non-political Union member can clearly see the self-interest which drives Left-wing Union officials, and the indifference to their problems which is shown by their more Tory-influenced officials.

Only the National Front, through its policy of promoting workers' co-operatives and the promotion of the smaller business can and will restore the dignity and true job-security to the British worker.



Local Publication with a Future

AN excellent local National Front publication, *Nation on Fire* is being produced by Coventry National Front.

Issue 2 contains activities reports, an expose on media lies against the NF, a very good editorial 'It's your future - Fight for it', a History of the NF, Policy Statements and an interview with Joe Pearce.

You get all this by sending 50p to Nation on Fire, P.O.Box 114, Solihull, West Midlands B91 2UR.

***The FLAG* sends congrat -ulations to *Nation on Fire* Editor, Paul O'Brien, on the production of a very accomplished magazine.**

Harrow NF Getting Established

JOE Pearce, was the guest speaker at the September meeting of Harrow NF.

Under the watchful eye of North London Regional Organiser, Paul Nash, the Harrow Branch are gradually establishing themselves in the town getting regular local press coverage by a letter campaign attacking the lunacy of local council decisions.

HELPING THE FRONT!

West Midlands Regional Orgnaiser John Hill reports that a small group of BNP members are attending the Birmingham monthly meetings.

He is hopeful that this group will shortly be forming a branch of the National Front in North Birmingham.

FOCUS ON LEEDS NF

LEEDS National Front are having a very good year! And it's not only because they look certain to be NF football champions.

The branch as a whole is functioning better than for some time and their fame on the football field looks soon to be matched by fame in another sphere.

The Leeds Branch newsletter must be the best in production. Giving a comprehensive run down on local activities, it does so with wit and humour, and even carries a regular cartoon strip produced by Organiser Keith Taylor. Here are some extracts from the September issue.

News from the Libyan/Italian Front Line: *Libyan leader, Monsignor Dir-Haq Hollafi, with the help of Romanian Leader Rustguard Harringu (also spelt Harringay), has ousted Cosa Nostra boss Nicolo Griffini from the positions of Godfather and Mahdi. Griffini has now retired with his 'family' to the lower Eastside of Chester to control the 'Organisations' lucrative production of schoolgirl spite, undergraduate lunacy and capacity for self-delusion.*

Hollafi, whose charisma is said to be as plentiful as Bob Campbell's flowing tresses, will, it is predicted by knowledgeable observers, be replaced by Rustguard Harringu in the not too distant future. Rustguard will have the aid of his sorceress mother Begum Been-At.

We sit on the edges of our chairs, with yawning indifference, awaiting the outcome of this nothing-very-much-shattering drama of malevolence and irrelevance about the suzerainty of the world's smallest dust bowl.

LEEDS NFFC. Still Unbeaten: *The rigorous training sessions of Leeds NFFC manager, Mr Keith 'Beefy the Callous' Taylor, who drives his players to train in all weathers has demonstrated that his inhuman treatment of his players has produced rewards.*

On August 9th (only a day after the sinew-stretching, muscle-mauling 'yomp' through four hours of uncharted Education and Training seminar) Leeds NFFC defeated Birmingham NFFC by eight goals to five. Man of the match was indisputably Mr. Keith 'Tiffer' Brandon. Steve Brady would say that it is all reminiscent of the defeat of the Mercian (Midlands) King Penda at the hands of the Northumbrian (including Yorkshire) King Oswiu at the Battle of Winwaeth (Whinmoor) in 654. But Steve does say such things!

• *Karen Taylor: Leeds Treasurer.*

Halloween Social: *Tickets are now being sold at £1.00 each by Organiser Keith Taylor and the Treasurer, Miss Karen Taylor. There is no truth in the rumour that Mr Harrington's mother will be stirring the cauldron or that she will be releasing her son from his reptilion form.*

But its not all laughs with Leeds Branch.The hard-working committee make sure the branch runs smoothly with the financial side being ably looked after by treasurer Karen Taylor. Publications officer Tony Stewart has a extensive programme of door-to-door sales, street sales and leaflet distribution.

Andrew Brons is involved in a long drawn out battle with the *Yorkshire Post*, involving the Press Council, over allegations made by the paper that Leeds NF were some way involved with the race riot after the Test Match at Headingly.

Paper sales at Leeds Utd's Elland Road ground continue to boom and Leeds Branch's record of supporting national activities looks certain to be maintain with a healthy contingent already booked to attend the AGM and Remembrance Day.

Good Luck Crabbie

Congratulations to Batley Organiser Stephen Crabtree on his marriage to Jayne on September 19th.

TV COVERAGE FOR NEWCASTLE NF

• *John Harwood (Centre) selling with colleagues in Newcastle City Centre*

NEWCASTLE National Front have been receiving extensive T.V. coverage with their sales of *The FLAG* and *Vanguard* outside St. James's Park the home of Newcastle United F.C.

Organiser, John Harwood, also reports encouraging papersales **every day** in the centre of Newcastle.

Sunderland has been targetted for NF activity in the next few weeks with long term projects for Middlesborough and Darlington.

John told *The Flag* "Enthusiasm amongst North East members is magnificent. I would like to especially mention activists Rob Smith, Brian Husband, Steve McClarence, Mark Scotland with a special mention for our man at administration John Aspinall.".

HELP OUR ACTIVISTS

On 14th September at Birmingham's Victoria Law Courts two National Front Activists were find a total of £500.

The fine was for opposing an IRA march through Birmingham on Saturday May 9th. All the lads had done was shown their vocal opposition to the IRA but had been arrested because the Police wanted the march to go off with as little trouble as possible.

It seems that the magistrates had short memories. They must have forgotten the IRA pub bombings in Birmingham in November 1974 when 21 innocent lives were lost. Our two lads didn't forget. The magistrates should hang their heads in shame for such a miscarriage of justice.

Birmingham NF members, Martin Powell and Sean Jewsbury urgently need all the financial assistance they can get. Please help by sending donations to:-

All donations will be acknowledged and Martin and Sean will be extremely grateful for your assistence.

FLYING THE FLAG IN OXFORD

OXFORD, void of NF activity since the late seventies, is seeing a slow revival of party fortunes.

NF activists have started a distribution network for *The FLAG*. NF supporter Steve Ward said that he was confident that over the coming months more and more people would become aware of the Front's message by the NF newspaper being made available to anyone showing support for NF polices.

Lancs Growth

THE National Front is booming in Lancashire. As well as seeing Blackburn and Accrington re-activated during the summer under the guidance of former NF North-West Regional Organiser, David Riley, now, in nearby Clitheroe, NF members have started ordering *The FLAG* in bulk for a series of street sales.

Two New Groups in Kent

KENT continues to be one of the main growth areas for the National Front.

Regional Organiser Geoff Burnett reports the launch of groups in Folkestone and Tunbridge Wells.

"We've had people writing in to our P.O.Box asking for help in starting up NF groups in their town." he told *The FLAG*. "October will see NF meetings in two more Kent towns where the NF haven't organised for a number of years".

Crystal Ball

FLAG Prediction: *Manchester will see a National Front meeting before the end of the year!*

Hope for Staffs NF

JOHN Hill, West Midlands Regional Organiser, is hoping to see an inaugural meeting of Staffordshire NF before the end of the year.

Centred around Cannock, the new group will have a rota of papersales in towns in the region and its hoped such activity as well as building the Staffordshire Branch will also breath new life back into the once hard-working Stoke Branch of the National Front.

Another NF Group in Birmingham

BIRMINGHAM Treasurer, Norman Tomkinson, reports the setting up of another NF group in the city.

August saw Hollywood NF launched with a meeting of over 40 members and now October sees the launch of yet another group covering the rest of South Birmingham.

OBITUARY

REQUIEM FOR A RATBAG

LORD Soames is dead and buried at Odiham (pronounced odium, and in this case deservedly so).

Christopher Soames was the flabby slob who became very influential in Tory circles on the strength of being Churchhill's son-in-law. Another of Churchill's sons-in-law, you may recall, was Duncan Sandys; he who scattered British passports among Third World populations like cut-price confetti; and Soames's career was well up to standard in this grotty tradition, being one of deviousness, deceit, and downright treachery.

The high point of Soames's low-down career came when he was appointed Governor General of Rhodesia during 'the transition to Black majority rule'. Lord Carrington, now Secretary General of NATO *(God help us)*, is rumoured to have frequently boasted over brandy and cigars, of how he and Soames conned Ian Smith and the other trusting and naive Europeans into accepting the destruction of White Rhodesia on the basis of worthless Tory guarantees.

Certainly the effectiveness of Soames's contribution to the betrayal of the Whites may be judged from the fact that Robert Mugabe, Marxist Prime Minister of the one-party state that ruined Rhodesia has become, made a special trip to Soames's funeral to pay homage to the Tory traitor.

No doubt asbestos suits were de rigueur on this occasion for if there is any justice in Heaven, Soames is roasting in Hell. If there were any justice on earth, he'd have made the trip a lot sooner.

"You can fool some of the people some of the time, but you can't fool all of the people all of the time"

WHAT A WAY TO TREAT AN HONEST COPPER!

WHAT happens when a Police Chief tells the truth about Britain's multi-racial society?

The answer is that he gets retired quietly, and as quickly as possible.

Metropolitan Police Commander, Brian Sparks, 48, was critical of the Notting Hill Carnival and the treatment his officers had to put up with year after year at the hands of the mob. He voiced those concerns to other senior officers prior to the 1986 ' Nightmare'.

After his remarks were leaked to the press by ethnic-sycophant amongst those officers, he was investigated by the Director of Public Prosecutions but the investigation found that he had no case to answer.

Brian Sparks was immediately put on sick leave after making the remarks. He has been absent from his desk ever since. Now he has been retired after 30 years of loyal service to the force and with still a great future in front of him.

What a way to treat a Police Commander who had the courage to tell the truth.

MINORITIES DICTATE TO THE BBC

THE BBC has again refused calls for a re-run of the Black and White Minstrel Show.

Arguably the most successful entertainment series of all time, the Black and White Minstrel Show ran for twenty years, week after week topping the viewers charts.

The BBC continue to claim the show would be regarded nowadays as racist and would offend the ethnic minorities living in Britain.

• *Black and White Minstrels: Silenced by the Multi-Racial Lobby.*

LIVING IN FEAR

WOMEN are living in fear in London.

A Metropolitan Police survey revealed that 70% of women question feared they could be raped or sexually molested or pestered.

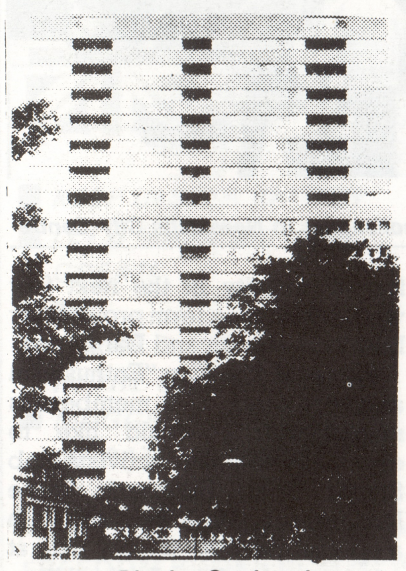
60% of women said that fear arose after dark.

Fears of attack also increased with age.

The National Front is pledged to protect British women from attacks. The penalty for rape should reflect the nation's abhorrence of the crime and deter would-be rapists from their crime with the knowledge of the punishment they would receive. ***The FLAG*** **believes that rapists should be castrated.**

CONCERN OVER REPAIRS

AN ALARMING indictment of the British Construction Industry comes in a Government report on tower blocks built by the large Panel Systems (LPS) method of construction.



• *Tower Blocks: Souless boxes.*

The report, the result of a three-year survey on the high-wind vunerable blocks cost £2 million and warned councils they face a bill of repair of £2 billion.

But architect Sam Webb, who has led the criticism against the LPS building programme believes the work will never be carried out.

"There is a danger that councils will do nothing because they do not have the money to carry out the necessary checks and repairs".

The National Front believes that tower blocks are souless multi-stacked boxes which denigrate its inhabitants. The National Front believes in the right of all British people to own their own home, on their own plot of land securing for them part of Britain and the pride, responsibility and incentives that go with having a real stake in your country.

• *British Schoolchildren: All they desire is an education based on Christian values and traditional British curriculum.*

FIGHTING FOR A BRITISH EDUCATION

RACIAL motivation is driving twenty-six families in Yorkshire to seek a new school for their children despite increasing opposition from their local authority and the cold shoulder from the Government.

Kirklees Education Authority have ordered the children, aged between seven and eight, to attend Headfield Middle School which is 93% Asian, while the parents want the children to go to the predominantly White Overthorpe Middle School.

With Education Minister, Keneth Baker refusing to intervene and the parents refusing to sent their children to the Asian-swamped Headfield, on September 23rd parents went to Downing Street to hand in a petition signed by 9,000 residents from Dewsbury. As they did so they were verbally abused by a mob of Labour supporters together with representatives of the Dewsbury Asian community.

The Government refuses to face up to the issue claiming it is just the freedom of choice of a school for a child's education.

The National Front is not afraid to face up to the truth. It is Race that is the issue. It is the desire of British families to seek a British education for their children. An education based on Christian values and traditional curriculum, not the Asian orientated ethnic-infatuation offered by many local councils whose only concern is for the Asian vote at the next General Election.

The FLAG wishes the families of Dewsbury all the very best.

• *Kinnock might enjoy being swamped by Asians but British kids don't.*

TWO YAMS IN THIS HAND

SCHOOLCHILDREN from the age of five are to be brainwashed by a multi-cultural education course being introduced by Birmingham City Council at two primary schools in Sutton Coldfield.

At a cost of £29,000, British children will learn about curries, the history of Sikhism and instead of counting with apples and pears will use yams and pomegranates.

A spokesman for Birmingham City Council rejected claims the the courses were designed to indoctrinate children.

FLAG PROMOTION FUND

The Flag has now been coming out regularly for well over a year and we are pleased to be able to report that the last issue achieved the best regular sales so far, and as a result we are increasing the numbers of copies being printed.

However we feel that *The Flag* could do still more in recruiting British people to the Nationalist cause. We have a whole range of ideas to distribute *The Flag* to potential sympathisers, but most of these require initial capital.

Consequently we are setting up the '*Flag* Promotion Fund' which will be used to expand our distribution of the paper to such people. Some of these projects require only a few pounds, others would need several hundred pounds -

We are asking you to donate what you can afford to help us build up *The Flag* and consequently British Nationalism. Please use the form below to send in your donation.

EDITORIAL No.13 October 1987

Newcastle Organiser John Harwood is this month's Guest Leader Writer.

WHAT WE STAND FOR

WE Racial Nationalists are struggling against the forces of internationalism not only for the wellbeing, but for the very freedom and survival of the British Nation.

The immediate threat to our existence comes not from without but is posed by the 'ruling Establishment' itself, of which the Tory, the Labour and Liberal parties are all part and parcel. It is an Internationalist Establishment because political and economic power is concentrated in the hands of a cosmopolitan with sectional, international and/or alien interests and loyalties.

At the centre of the Establishment lie those who own and control the banking system with its interlocking directorships in multinational Capitalism. While the bankers and Big Business Capitalists gain more wealth and power, we are forced to suffer continual economic crises with attendant inflation and unemployment.

GREED

Establishment greed has also led to a massive importation of coloured immigrants in order to cut the wage bargaining position of the British worker, and break down national barriers which stand in the way of International Capitalism. The vast majority of ordinary British people - dispossessed of everything but their labour which they have had to sell to live - have been thrown into direct competition with coloured immigrants who were willing to work for lower wages, and whose presence swells the labour pool depressing overall wage levels. Now racial intermixing threatens the preservation of our distinct national character, with its unique talents and abilities. The same internationalist interests were behind the deliberate alienation of our British kinfolk overseas, and our submersion in the European Common market.

PRESERVE

We want to preserve our identity, assert our independence, and lay stable foundations for a worthwhile future, but this can only be done by building a revolutionary Nationalist movement dedicated to the overthrow of the ruling Establishment and the utter destruction of its parasitical System.

Only by booting out the self-seeking and corrupt time servers of the Establishment parties and by replacing them with men who are truly representative of the democratic Nationalist movement will we be able to remove the alien populations. But it is no enough simply to treat the symptoms of national suicide, without eradicating the disease, and preventing its recurrence. In the society which we will build the creation of credit will come under State control, and those who work by hand and brain shall have a decisive say in the direction of commerce, so that never again can a monopoly of power fall into the hands of aminority with divergent interests from those of the Nation as a whole.

Once freed from the stifling burden of our existing financial system, our wealth and economic power will rapidly expand. This growth of our economic potential will not be directed into the creation of more concrete jungles, for we want this country to have a more natural and healthy environment. The long-term health and welfare of our people will replace the short-term greed that has up until now caused the pollution of so much of our country.

QUALITY OF LIFE

The quality of life will also be improved by enlightened town planning. House building and renovation will be encouraged so as to maintain the local community spirit, instead of the present practice whereby people are needlessly shoved into soulless tower blocks.

In a Nationalist society with a stable economic basis people will no longer be consumed in the deadening materialism of a desperate rat race to preserve their share of the cake. We will build a strong, beautiful and free Nation, in which people will be able to seek the higher goals of spiritual and cultural fulfilment, and from which we will be able to press forward to the new frontiers of science and space.

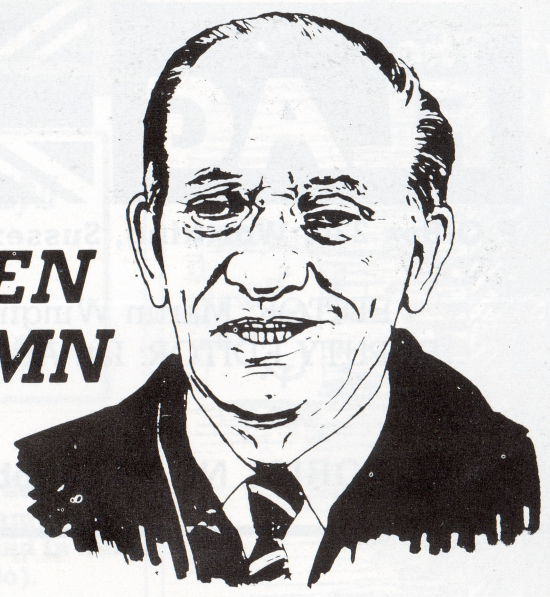
THE TED BUDDEN COLUMN



PROOF POSITIVE

COMMENTING on an alleged IRA plot to murder him, Northern Ireland Secretary, Tom King, cited it as an example of "the IRA's desperation at the success of the Anglo-Irish Agreement".

Ah, yes. I suppose it depends on the aims of that agreement between the Tories and the proud potato republic.

Just what those aims are might be judged from a testimonial from Cardinal Thomas O'Fee, Roman Catholic Primate of All Ireland. He is said to be a 'Nationalist' or, more accurately, disloyalist. There is no proof that he is actually an IRA supporter; indeed he has occasionally condemned IRA murderers when they have killed brave Roman Catholic policemen - in fact he was downright angry when one was gunned down on the steps of his very own cathedral. Nevertheless, he has not, to my knowledge, excommunicated any of the murderers nor urged his devout flock to turn them in to the authorities. Nor has he banned the teaching of the grotesque travesty of Irish history in N. Ireland's Catholic schools that has proved such a potent factor in the recruitment of sullen blockheads to the IRA's cause.

Now Cardinal O'Fee has declared that his original opposition to the Anglo-Irish Agreement is ended and that he now supports it "because it is working".

Ah, Yes.

Well, it does not seem to me that the Anglo-Irish Agreement has in any way diminished the IRA's murder rate - in fact it has increased. Strangely enough, when a High Court judge and his wife were killed, the murders were swiftly followed by the ambushing of an IRA gang in which all the members were killed. Since then, the IRA have killed members of the security forces and Loyalist civilians virtually without retaliation. It is as though the famed agreement has conferred diplomatic immunity on the IRA.

The IRA have been given a clear message that they kill a member of the Establishment at their peril. Apart from that, it seems, anything goes in the joint campaign to destroy Loyalist resistance through sheer war weariness.

So is the Anglo-Irish Agreement working? Well yes; we have Cardinal O'Fee's holy word on it.

NEW IMPERIALISTS

BEFORE the Asian colonists were booted out of East Africa and came to colonise Britain, they were known as the 'Jews of Africa' because of their domination of trade and finance in the area.

Now it seems that it is not only in this respect that they have emulated the Jews for since their arrival they have quickly learned from the success of Zionist propaganda that the best way of cowing the doltish British is to holler 'Discrimination' and 'Persecution' at every opportunity.

So when that impudent Barbadian, Sir Peter Newsam, presented the latest report of the Commission for Racial Equality - otherwise known as The Ethnic Inquisition or The Unspeakable Pursuing the Unattainable - it was jam packed with lurid details of Asians being attacked and harassed by White fiends, especially on council estates.

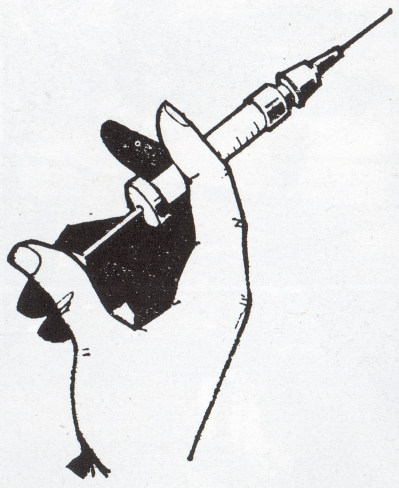
When God made Asians, He omitted to give them the gift of honesty but made up for it by endowing them with the ability to lie with great conviction and, as we all know from past experience, Asians are adept at recounting experiences of racially-motivated attacks that are pure invention with impure motives.

Their stories would not need to be very convincing to enlist the support of that state-subsidised aggregation of strutting immigrants and white degenerate mercenaries who comprise the Commission of Racial Equality for it is the very stuff to justify their existence.

Furthermore, power has made the new colonists just as arrogant as the old imperialists for the CRE's Dr. Aaron Haynes has demanded that Whites found guilty of 'racial harassment' should not merely be evicted from their homes but should be regarded as having made themselves intentionally homeless and ineligible for rehousing. It rather smacks of some old imperialist teaching the natives a lesson by burning down their huts.

It also conjures up a vision of council estates wholly occupied by Blacks and Asians while homeless Britons wander the land.

And, come to think of it, that's very nearly the way it is.



WAR ON DRUGS

1st September 1987: Penang, Malaysia.

In furtherance of the Malaysian Government's determination to crack down on drug-dealing a Mrs Lorraine Cohen and her son Aaron Shelton were convicted of trafficking in heroin. Mrs Cohen, a New Zealand prostitute, was caught with 140 grammes of heroin, which was found in her knickers.

Aaron Shelton was sentenced to life imprisonment and a flogging.

Lorraine Cohen was sentenced to death.

4th September 1987: London, England.

In furtherance of the British Government's total inability to be determined about anything except their own divine right to govern a Ms Maria Aitken was found guilty of smuggling 557 milligrames of cocaine from Peru. Ms Aitken claims to be an actress, she is sister of Conservative M.P. Jonathan Aitken.

Maria Aitken was fined £500

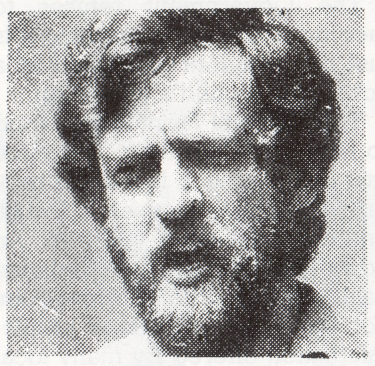
LABOUR'S IRA MAN AT WESTMINSTER

JEREMY Corbyn is the Labour MP who wants Britain to admit any Asian Tamils who turn up at our airports or seaports. He is also imfamous for his pro-IRA views. He has just employed a research assistant called Ronan Bennett.

Ronan Bennett in 1975 received a life sentence for the murder of an R.U.C. police inspector - this was quashed on appeal a year later. He is a self-confessed anarchist and a member of the Black Flag anarchist group. After his release from prison he came to England and was arrested in 1977 after a police raid in Huddersfield.



• *Corbyn: New Assistant*

In 1979 he was acquitted in a controversial trial at the Old Bailey. The judge Mr King-Hamilton attacked the decision of the jury. He said: "Even a child would not have been confused by this evidence. I pray to God that none of the jurors have cause to regret their decision".

Ronan Bennett now has extensive access to the Houses of Parliament, already the scene of one IRA atrocity when Airey Neave was blown to bits by a car bomb as he left the Commons. Surely to allow an IRA supporter such access is tempting fate, or maybe that is what Mr Corbyn has in mind.

HOCH'S EVER-INCREASING MEDIA EMPIRE

ROBERT Maxwell is at it again. His latest bout of empire-building has taken him to Japan, there to seek partners to help him build one of the world's biggest media groups.

As well as his Japanese connection Maxwell, real name Labji Hoch, is also Chairman of the British Printing and Communications Corporation and owns the *Daily Mirror*. He is also planning to set up three more newspapers in Britain; is discussing a television venture; wants to start another daily paper for London and Tokyo while already producing an English language Chinese daily paper in Europe.

Maxwell's slogan for the *Daily Mirror* is FORWARD WITH BRITAIN! What a bloody joke.

STREET THUG FAILS TO CON UNITED

WELL DONE Newcastle United Football Club! They have seen through a cynical ploy to exploit them by the Tyneside and District "Anti-Fascist Association".

The local AFA had tried to sponsor United's game with Charlton on November 28th with funds donated by the local council, local unions and Asian organisations, but United's commercial manager, Grahame McDonnell, said that sponsorship of a football club by a political organisation was out of the question.

• *McDonnell: Not Duped*

The ploy was the brainchild of local Labour Party street thug,

• *McFadden: Street Thug.*

Alex McFadden who two years ago had tried to organise gangs to attack NF papersellers in the city centre. In 1986 he led a mob that stopped a National Front candidate holding a lawful election meeting in support of his campaign. In the same year he organised a march hoping to mobilise Geordies against the NF. Less than 100 people turned up.

Despite all the AFA's attempts the National Front continues to grow on Tyneside with Newcastle NF increasing their orders of *The FLAG* for September.

STOP THE FLOOD

Dear Sir,

I wonder if your readers are aware of the North/South divide with regard to house prices? Whereas someone in the north on modest pay can afford an Edwardian terraced home at £15,000/£20,000, this would cost £100,000 in inner London and £50,000 in the suburbs. This is a brick wall obstructing any earnest northerner seeking employment and settlement in the less job-devoid South East.

No one really knows how many coloured immigrants are in the country; it could be 10 million. However, the GLC census report of 1984 admitted to 3 million in its area alone. The 50,000 immigrants a year still pouring in, mostly staying in the London area are making the housing crisis more acute.

Instead of our Tory Housing Minister preparing further erosion of our Green Belt he should be working to stop the principal cause of our overcrowding.

DIFFERENT CLASS

Dear *FLAG*,

I used to be an avid reader of Peter Simple in the *Daily Telegraph* thinking him outrageous in his ridicule of the establishment and its multi-racial grovelling.

Then I read the Budden Column. I'm afraid my life hasn't been the same since. Peter Simple is not in the same class as Ted BUdden. I literally squirm when I read Ted's column; he says everything that a normal heathly Briton feels inside but is too embarrassed to put into words, and he pulls no punches in showing his contempt for establishment figures.

I do have one complaint though. With Ted's gift for ridicule I don't think it necessary for him to use words such as 'sootball' or 'coongeld', I think that is over doing it.

ONE BADGE

Dear Sir,

I believe that there are too many types of NF badges in existence and I think that after 20 years we should have settled on a single version.

I should like to see the Union Jack adopted as our badge, this is the badge I wear myself and have found it quite popular.

I believe that some people are reluctant to wear a badge with the letters NF on it for fear of provoking an incident but they have no such reservations about wearing their national flag.

These badges should be made readily available and as cheap as possible. Remember, every badge worn is an advert for the NF.

LET'S MAKE IT BIGGER

Dear Sir,

The FLAG is by far the best Nationalist newspaper in Britain today with its eight pages, however it would be nice to see just two more pages.

With money a bit short, I think I have found a way of overcoming that problem.

If the major branches around the country would take it in turns to sponsor *The FLAG* each month for the extra amount required the cost of the two extra pages could be met.

The extra two pages could be used as local propaganda for the sponsor of that issue with maybe increasing the sales of *The FLAG* in their area by doing so. Also it could be used to put forward the NF policy programme to a wider range of people.

I'm sure organisers and committee members of the NF want *The FLAG* to expand and so will support this project. The NF has an excellent newspaper - Let's make it bigger.

ONLY THE NF STANDS BY NEWHAM'S O.A.P.s

ST. Bartholomews Church in Newham operates a day centre for 60 old age pensioners paid for by the local social services department. Because it is located in a relatively White area of the borough it is no great surprise to find that all these old people are also White.

About three months ago the social services department of Newham Council decided that these old people would have to move out to make way for a group of exclusively Asian old people. The department then informed the current users of the day centre of this decision by scattering a few leaflets around the day centre, telling the old folk that they would have to go somewhere else, to a centre some distance away and which is in appalling condition.

The White old folk were very upset and very angry and they decided to fight this 'eviction'. They launched a petition which in a matter of days had grown to several thousand signatures. The local pro-Tory newspaper took up their case in an attempt to embarrass the Labour Council, but the old folk needed little help. They forced a special public meeting of the Social Services Department of Newham Council.

Realising that the White old people were very angry the Council decided to move the meeting away from the Town Hall which is only a hundred yards from the day centre to another hall in 'darkest Manor Park' - which is about 25% Black.

At the meeting on Thursday 17th September one of the old age pensioners, Ivy Barlow, gave a stirring condemnation of the Council's action while the councillors gazed stonily at their feet.

• *Newham 's white old folk making way for Asians.*

The meeting erupted when the Conservatives attempted to shout out that 'If Maggie was running the country this wouldn't happen' while Labour Councillors were screaming back that 'If Maggie had her way it was likely there wouldn't be any day centres".

The NF members who were scattered throughout the audience kept up a steady barrage of "What about our old folk?", "Why should our old age pensioners have to move out?" etc.

At the end of the meeting the Labour Council attempted to get off the hook by announcing that nothing would happen for three months while the situation "was reviewed". The Tories present thought this was fine (or they had run out of breath). Only the National Front members shouted out many peoples' disgust that the old people now wouldn't know whether they were going to stay or whether they were going to be thrown out. Labour clearly didn't care about the anxiety that this uncertainty would cause, the Tories didn't even understand that it would cause distress. The National Front members protested vigorously to the clear embarrassment of the other two parties.

While they were playing football with the old folk, only the National Front showed that it really cared, which is perhaps why quite a few old age pensioners and other members of the public bought copies of *The Flag* as they left the meeting.

SCHOOL LEAFLETTED

ON Thursday 17th September South Birmingham NF organiser Mark Rea and Dudley Organiser Andy Nolan handed out a large quantity of 'Britain for the British' leaflets and some back issues of *The FLAG* outside Kings Norton Boys School in South Birmingham.

They received a very good response from many pupils and several requests for more literature.

Afterwards several local roads were leafletted, some of them made up of all white residents, a rare sight in Britain's multi-racial second city.

The leafletting of a local school signals the start of a major recruitment drive in the south of the city, which has not had the attention that it should have done in the last few years. A new branch has already been formed in Hollywood and it is hope that new members will continue to come in at the present encouraging rate.

Mark Rea told *The FLAG*, "Morale amongst the Birmingham members is excellent with regular activities every week in our target ward of Washwood Heath. There is no stopping Birmingham NF at the moment".

MUSIC SCENE with Bob Nash

BRITISH TRADITION

IN contemporary society we cannot ignore the continued presence (some would say din) of modern pop music. For the most part this commercially orientated music is largely meaningless, and in some cases decidedly anti-British.

It is perhaps time we looked to traditional British music for inspiration, music such as that of the British Military bands.

British Military Band music has a long historical tradition captured within its tunes, in the same way that folk music conveys to us tales and pictures of traditional British society. Military Bands, in the music they play, convey the national pride and fine tradition of the fighting spirit over the last few hundred years.

Marches and pieces of music such as *The British Grenadiers, Salute for Heroes, The Thin Red Line, The Standard of St George* and the Military Band arrangements of such well known favourites as *Land of Hope and Glory* and *Rule Britannia* are a real inspiration to all Britons.

BEST LIGHT

Such annual occasions such as the Royal Tournament and the Trooping of the Colour are spectacles which present the music of the military bands in their best light. Watching and listening to such displays deeply moves its audience and is a fine portrayal of traditional band music.

The music of the Military Bands is not therefore some out-moded fossilised ritual as Red critics would have us believe. The music of the Military bands is a living British tradition that we as Nationalists should preserve as part of out culture and heritage.

The music of the Military Bands is a true example of the unbroken spirit of the British people, music from which we gain our inspiration even today.

FLAG SPORT

THE SMALL CLUBS ARE BOOMING

WHILE many big name football clubs are experiencing serious financial difficulties as a result of past extravagance, many small clubs are undergoing a boom. The Southern League, now re-named the Beazer Homes League, is enjoying a 45% improvement in crowds while the GM Vauxhall Conference crowds are up 40%.

While these increases are general, many of the increases have come about as a result of a lot of hard work by dedicated staff and players and by ploughing money earned back into the club in the form of improvements.

Outstanding is Merthyr Tydfil who have invested £150,000 on recent ground improvements. This has been more than justified in their team's outstanding 2-1 win over Atalanta of Italy in the first leg in the Cup Winners Championship on 16th September.

SIBBO'S MAGIC

ON Wednesday 16th September 29 year-old Tony Sibson put up his Commonwealth middleweight title as collateral to fight British middleweight champion Brian Anderson.

Sibson duly won the contest securing for himself a Lonsdale Belt having won the British title twice before having beaten Frankie Lucas in 1979 and West Ham's own Mark Kaylor in 1984.

Sibson's win puts him in line for for a shot at the European and world titles but *The FLAG* thinks Sibbo should think twice before committing himself to that campaign. While Sibbo relished the hard battle against Anderson Sibson's bruising career has taken its toll. The sparkle that was seen with Sibson disappeared when he went up a weight and tried to take the WBC light-heavyweight from Dennis Andries. Sibbo took a beating that evening and the fact he came back after that to put up such a good display against Anderson is a great tribute to his courage.

***The FLAG* thinks Tony Sibson should call it a day now. Stop while your at the top Tony. You've just won your Lonsdale Belt so what better note to retire on.**

FOREIGN STALKERS THREATEN DEER

STAG hunting is a sport which regularly causes controversy amongst people, yet recent events have caused even the most died-in-the-wool 'hunting shooting and fishing' enthusiast to question the conduct of the sport.

Hunting enthusiasts claim that shooting deer is necessary to keep the deer population at an optimum level. However as the hunting season gets into full swing this is very far from being the case.

According to the Red Deer Commission numbers of hinds and calves are running at a record high of over 200,000 however there are too few mature stags - barely 80,000. This is the direct result of over-shooting, some 20,000 stags are shot each year.

This situation has only arisen in recent years with the arrival of foreign stalkers - particularly Germans. Traditionally British huntsmen are not great trophy hunters, they are more interested in the stalk and have been content to take old stags or hinds.

These foreign hunters have been prepared to pay several hundred pounds for a prize trophy.

If deer hunting does not achieve its avowed object of maintaining an optimum deer population then it loses any right to continue at all.

★ *Stags: Foreign hunters are after their antlers.*

ANGLERS LEAD THE FIGHT AGAINST POLLUTION

1986 SAW the worst ever pollution of rivers in South-West Britain where tens of thousands of young salmon and trout were poisoned.

Farmers and factories are to blame for this sensless slaughter because they are finding it cheaper to pay fines for polluting Britain's rivers rather than facing the cost of other means of waste disposal or undertaking preventative work to prevent the pollution.

Courts have been handing down fines as little as £50 to defendants when the damage they have done can be measured in tens of thousands of pounds.

• *Pollution: Destroying our rivers*

Fed up with the ineffectiveness of local magistrates, the Anglers' Co-operative Association took out its own private action against Derwentside District Council for allowing an escape of chemicals from Consett in Durham which polluted Howden Burn and The Derwent. The ACA obtained £35,250 in damages.

Britain streams and rivers and the wildlife that lives in that environment must be protected.

Much heavier fines and even imprisonment for pollution offenders must be a first priority together with a course of education for would-be polluters as to the damage they can caused.
